DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on June 25, 2007 has been entered.

Response to Amendment

2. The Examiner acknowledges the amended claims filed on June 25, 2007. **Claims 1, 6 and 19** have been amended. **Claims 4, 5, 9 and 10** have been canceled.

EXAMINER'S AMENDMENT

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mario A. Costantino on July 18, 2007.

The application has been amended as follows:

Claims 19. (Currently amended) A processor executable computer program product readable recording medium storing a program that includes instructions that when executed by a processor, causes the processor to perform a method comprising:

receiving a first command that will result in the transmission of digital images from a digital camera through a docking station, and to a predetermined folder in a storage medium;

waiting for a predetermined period for a second command that designates another folder in which the digital images are to be stored in the storage medium; and

executing the second command if the second command is received within the predetermined period, the first command being executed automatically to store the images in the predetermined folder if the predetermined period passes without receiving the second command.

Allowable Subject Matter

4. **Claims 1-3,6-8 and 11-19** (Renumbered as 1-15) are allowed.
5. The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the main reason for indication of allowable subject matter is because the prior art fails to teach or reasonably suggest, including all the limitations of the present claim, that after receiving a first command that will result in the transmitted digital images being stored in a predetermined folder, the controller waits for a predetermined period for a second command that designates a different folder in which the digital images are to be stored, and executes the second command if the second command is received within the predetermined period, the controller automatically

executing the first command and storing the images in the predetermined folder if the predetermined period passes without receiving the second command.

Regarding claim 6 (Renumbered as claim 8), the main reason for indication of allowable subject matter is because the prior art fails to teach or reasonably suggest, including all the limitations of the present claim, that after receiving a first command that will result in the transmitted digital images being stored in a predetermined folder, the controller waits for a predetermined period for a second command that designates a different folder in which the digital images are to be stored, and executes the second command if the second command is received within the predetermined period, the controller automatically executing the first command and storing the images in the predetermined folder if the predetermined period passes without receiving the second command.

Regarding claim 19 (Renumbered as claim 15), the main reason for indication of allowable subject matter is because the prior art fails to teach or reasonably suggest, including all the limitations of the present claim, waiting for a predetermined period for a second command that designates another folder in which the digital images are to be stored in the storage medium; and executing the second command if the second command is received within the predetermined period, the first command being executed automatically to store the images in the predetermined folder if the predetermined period passes without receiving the second command

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
